POLYGRAPH REPORT

DATE OF REPORT: July 19, 2010
DATE OF EXAM: July 17, 2010
PLACE OF EXAM: Lexington, Kentucky
EXAMINEE: John Buckley

CASE FACTS

John Buckley has been accused of raping Jessica Ryburn at his apartment on May 29, 2010.

On July 17, 2010 Buckley was interviewed by the Examiner and furnished the following information.

Buckley stated that he met Ryburn at a party during October, 2008, and they began a sexual relationship until May, 2010.

Buckley stated that on May 28, 2010, he found out that Ryburn was sleeping with a friend of his, and decided to break off the relationship with Ryburn. He advised that on May 29, 2010, Ryburn called him and stated that she wanted to talk about their breaking up with him face-to-face.

Buckley stated that Ryburn came to his apartment, they talked for awhile, and then by mutual consent, decided to have sex. Buckley stated that he videotaped the session with Ryburn, as he had done on numerous occasions in the past. Buckley stated that Ryburn enjoyed the role of being submissive and told what to do during their sexual encounters.

Buckley denied that the sexual contact he had with Ryburn on May 29, 2010 was anything other than consensual on her part.

Buckley agreed to take a polygraph examination concerning the above.

July 19, 2010

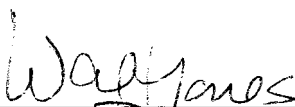

TEST RESULTS

John Buckley was found to be a capable reactor. There were no known physical or psychological problems that would preclude a valid polygraph examination.

The polygraph examination was administered, using the following relevant questions:

1. Did you force her to do anything sexually against her will?
Answer: No.
2. Did you do anything to her sexually without her consent?
Answer: No.
3. Did you threaten to hurt her if she did not have sex with you?
Answer: No.

It is the opinion of the Examiner, based on the review of the polygraph charts, that no deception was indicated to the relevant questions on this examination.
